**September 1, 2019:**

We are proud to announce that Insight Partners is the new manufacturers' representative for AnnexAir in our Tampa and Ft. Myers regions. We are thrilled to offer our partners across Southwest Florida and Tampa the best possible solutions for their projects, and we look forward to the opportunity of representing a premier manufacturer with a focus on high-quality and energy-efficient products such as AnnexAir in the commercial HVAC category.

To learn more about AnnexAir, Insight Partners, or the network we are cultivating to better serve our partners, please do not hesitate to contact Vic Hoffman, General Manager and Vice President of Insight Partners Tampa, at 813.613.1855 or [vhoffman@insightusa.com](mailto:vhoffman@insightusa.com) with any questions or requests for additional information.

#### About Annexair:

Annexair is a privately held North American company established in 1998 with an exclusive focus on designing and manufacturing high-quality, energy-efficient air handling systems. Annexair offers innovative semi-custom and custom air handling equipment with variable speed technology and thermo-composite casing design, often incorporating various airside energy recovery components which are designed for commercial, institutional, and industrial applications.

With over 7,500 installed systems across the globe, Annexair have built a reputation on innovation and customer satisfaction.

#### About Insight Partners:

A joint venture between Hobbs & Associates, Inc. and Texas AirSystems, LLC formed in 2016, Insight Partners, LLC is a commercial HVAC manufacturers' representative with locations in Florida, North and South Carolina, and, most recently, Georgia.

By bringing national experience and resources to local projects, Insight Partners provides commercial HVAC equipment and solutions for customers across a variety of markets and industries. With a combined 80+ years of HVAC experience, Insight Partners brings together a network of the best resources, people, and cultivated industry knowledge to give its partners a unique advantage over complex challenges.
